

Introducing the Food Systems Planner Mentorship Program!

The APA Food Systems Division is excited to announce a new mentorship program and we are seeking students who would be interested in being a mentee. This is a year long program that provides a great opportunity to help develop or enhance your career in food systems planning by receiving knowledge and guidance from experienced mentors.

Mentees will have the opportunity to:

- Meet with their mentor (e.g., Zoom, email, phone, in-person)
- Obtain guidance, support, and encouragement from their mentor to help reach your career goals
- Learn valuable knowledge and strategic advice that was gained through your mentor's personal experience
- Obtain networking contacts and resources

Interested students can apply here: <https://forms.gle/Tdhwu2sNjDs3ieQA9>
