

5. Accelerated Dual Degrees

Accelerated Dual Degree programs (ADDs) combine a Rowan University undergraduate degree with a graduate-level degree. Students typically work on an accelerated track and are also permitted to double-count up to 12 s.h./credits toward both degrees and pay the undergraduate rate for those 12 credits, saving students both time and money as they work toward their educational goals.

ADD programs tied to the MURP program

The Department of Geography, Planning, and Sustainability offers the following ADD programs tied to the MURP program.

[BS Community & Environmental Planning and MURP](#)

[BA Geography and MURP](#)

[BS Geographic Information Science and MURP](#)

Coordinator

Megan Bucknum, MUEP (she/her)

Associate Teaching Professor, Geography, Planning, and Sustainability
